

THERE MUST BE A WAY (Gallop-Saxon-Cook) Slowly, with expression

There must be a way - To Help me for- get- that we're through - } There's
 Song - That does- n't re- mind me of you. }

must be a way - To stop me from dream- ing of you. There
 To thrill me like yours - used to do.

must be a star in the skies That is- n't re- flect- ing your eyes, I

Just don't know how to dis- guise How much I miss you.

I looked for a way # to be hap- py, Hap- py with Some- bod- y

now Oh! There must be a way, But I can't find the way with- out you.
